Subject: Scoping of "global" RI/FS for Upper Animas

All – I would like your help and participation in attending a scoping meeting for an RI/FS

for the Upper Animas watershed. As many of you know, EPA, BLM and the State wish to move ahead with more completely defining the water quality problems in the Animas river watershed and it would help if we could identify the "universe" of areas to focus on – even if evaluating all aspects can't happen at once.

Please respond this week (Dec. 16-19) with your availability to attend either:

- ☐ ☐ ☐ ☐ ☐ ☐ the Monday, Tuesday or Wednesday the week of January 26th **or**
- ☐ ☐ ☐ ☐ ☐ ☐ the Tuesday, Wednesday or Thursday the week of January 19th.

I would suggest planning on meeting all morning and perhaps part of the afternoon of the day we meet. The amount of time we need may not need to be as long but I wanted to allow plenty of time for the necessary technical discussion.

I would like to get this meeting scheduled and on everyone's calendar before the holidays. If you have any questions, please feel free to give me a call at 303-312-6861.

Thank you.
